

TECHNOLOGY YOU CAN TRUST

A Product of
ADITECH INFOTECH PVT. LTD.

JustLook Server 100 users

Technical Specification

Model No	JL-Advanced-100
Type of License	Subscription
Live Face Detection	Available
Online Service	Available
Identification Speed	8 Lakh faces per sec
Duration of Subscription (in months)	12
Licensing policy	Per Named User
Number of licensing included in the offered product	2
User handling capability	Up to 100 users
Maximum Faces enrolment Capacity	Unlimited
Scope of Installation	Installation, Integration , Configuration, User Acceptance Testing of offered product
The offered product has support for	Unlimited updation for Patches and Bug fixes within maintenance & support period. , Unlimited upgradation of version within support period
Number of Months for OEM support for updation (Patches and Bug fixes	36
Number of Months for support for Upgradation of version is included in the scope of supply	36
Number of days Training Provided	2
Maximum Face Template Size (in KB)	2.3 KB
Face Detection Time for one Face in milli second	20

Verification Time for One Face in milli second	20
Enrollment Time for one face in milli second	30
Face Matching Speed from the database per Second (in lakhs)	8
Range of distance from the camera for face recognition (In ft)	3 to 6 ft
Features	<ul style="list-style-type: none"> • Only Live Face Recognition and do not recognise proxy images • Re-enrolment of a face Indication Panel for Employee Presence • Unlimited Transaction from the database • Unlimited templates per Person • Direct database Search • Customizable Categorization of Employees into group types etc • Live head count statistics • Blacklisting Feature to avoid entry of unauthorized person • Customizable Dynamic Shifts Management. <ul style="list-style-type: none"> • Overtime Management of employee • Management of Anomaly / missed punches • Restriction on time allowed to employees/persons • Integration with door lock or any other access control equipment • Any changes in the appearance will not affect the face matching process • Provision to integrate with another biometric device • Server Client Data Centralisations Provision for customizable Intranet supported web portal <ul style="list-style-type: none"> • Integration with the existing application • Similarity Level Adjustment (1-180) for face Recognition. • Provision for Back-Up/Restore System • Import employee data of active directory. • Provision of Configurable False considering the factor of Similarity of faces. • Provision of Configurable False Rejection Rate considering Camera Type, • Light Condition etc.
Type of Device used for Facial Recognition	Web camera [No Infrared Rays Camera]
Warranty for Face Recognition Device	5 years
Local storage Capacity	Unlimited (depend on computer hard disk)
